SUMMARY

Product designer with over 15 years in digital design, including six years at Worldpay (FIS) designing payment products for merchants and developers. I work across research, interaction design and visual design, and I do my best work on products that have become hard to use: sorting out the structure, simplifying the flows, and building the design system that keeps everything consistent afterwards. I like working closely with product managers and engineers, and I'm happy running a workshop or pushing pixels. Available now for senior product design roles in London, hybrid or remote.

SKILLS

Design: Product design, UX design, UI design, interaction design, visual design, information architecture, wireframing, prototyping, design systems, accessibility (WCAG 2.1)

Research: User research, usability testing, heuristic evaluation, competitor analysis, workshop facilitation

Ways of working: Agile, Lean UX, Double Diamond, design thinking, stakeholder management, cross-functional collaboration

Tools: Figma, Sketch, Miro, UserTesting, UserZoom, Jira, Adobe Photoshop, Adobe Illustrator, Keynote, PowerPoint, ChatGPT, Midjourney

EXPERIENCE

Career break: family and caregiving

May 2024 – Present

- After maternity leave in 2023 I went back to Worldpay, and in May 2024 my role was affected by a restructure of the UK design team.
- I chose to spend the following period caring for my family full time, while keeping up with design practice and tools.
- Now available for senior product design roles.

Product Designer, Worldpay (FIS Global)

London, UK | May 2018 – May 2024

- Led UX and UI design for payment products including Your Marketplace, Worldpay POS and Worldpay Dashboard, keeping the experience consistent across web and mobile.
- Built the design system for Worldpay's new brand, including components, design tokens and accessibility standards (WCAG 2.1), used by five or more product teams.
- Redesigned the Worldpay and FIS developer portals as one developer experience. The work covered a heuristic evaluation, competitor analysis, stakeholder workshops, a new information architecture, usability testing and a full visual refresh. The case study is on my portfolio.
- Ran user research and usability tests to check ideas before they were built, working day to day with product managers and engineers in Agile teams.
- Designed proof-of-concept payment experiences for Tesco, Disney, Open Banking and PSD2.

Lead UI Designer, Mobiliya Technologies

Pune, India | January 2017 – January 2018

- Led design for AR/VR, operational technology and mobility applications in healthcare, manufacturing and telecoms.
- Led a cross-functional design team delivering responsive interfaces across platforms.
- Introduced design documentation and consistent components so developers could build faster.
- Received the KUDOS Award (2017) for design.

UI/UX Consultant, Capgemini India

Pune, India | March 2014 – January 2017

- Designed UX and visual design for banking and financial services clients, including internet banking for National Bank of Abu Dhabi (NBAD).
- Worked as the only UX designer onsite with the client: gathered requirements, got designs approved and handed them over to the offshore build team.
- Ran UX workshops and training sessions to spread design thinking across the organisation.
- Designed a mobile app concept that won Tech-Fiesta 2015, a company-wide competition.
- Designed the winning case study for an M-Wallet product proposal at a MasterCard conference.

Web Designer, IndiaNIC Infotech

Ahmedabad, India | June 2007 – January 2014

- Started as an HTML developer and moved into web, UI and UX design over seven years.
- Designed more than 30 websites for Yahoo e-commerce stores.
- Built CSS themes for Yahoo Stores that Yahoo later adopted globally; our team was selected among the top nine international teams.
- Designed websites and products for gaming, retail, healthcare and enterprise clients.
- Mentored junior designers and worked with stakeholders to keep design standards consistent.

EDUCATION

Certified Usability Analyst (CUA) course, Human Factors International (HFI) | December 2023

UX Jumpstarter Programme, Imagine XP | 2016

12-week programme covering research, concept, prototyping and delivery.

Post Graduate Diploma in Computer Applications (PGDCA), Xavier's Institute of Computer Applications, Ahmedabad | 2010 – 2011

Bachelor of Commerce (Accounting), GLS Institute of Commerce, Gujarat University | 2007 – 2010

AWARDS

- KUDOS Award, Mobiliya Technologies, 2017
- Tech-Fiesta Winner, Capgemini, 2015
- Best Contributor, Capgemini, 2014
